Subtotal:

Core Courses are not seminars, and thus do **not** count towards the satisfaction of seminar hour requirements, even though they count towards the total 33 credit hour requirement to get the MA or to satisfy MA requirements. Students need at least a B- to pass PHI 5135, and a B to pass PHI 5555 and 5665. Each course may be retaken only once, under a tutorial number (PHI 5998).

Subtotal (Logic/Core Hours + Breadth/Seminar hours):

Breadth/Seminar courses **do** count toward the satisfaction of letter-graded philosophy seminar hour requirements, so if a student has satisfied her Breadth requirement (1 course each of an Ancient, Modern, Met./Mind/Epist. and Value Theory), and she is going to write a thesis for the MA, she will need 6 more seminar hours. If the student is taking an exam for the MA, then she will need 9 more seminar hours.

Students who come in with a MA may be able to transfer up to 15 hours of credit, some or all of which may count toward the satisfaction of the 33 credit hour requirement.

**TOTAL (Logic/Core + Breadth/Seminar + this table):**

If the student is writing a thesis for the MA, then she will need to take 6 thesis hours, which will give her a total of 33 hours.

If the student is taking an exam for the MA, then she will need 3 hours to get to the 33 hours required, which can be fulfilled with a DIS or Tutorial (these are listed on three separate lines above because a student may register for DIS or Tutorials for 1 to 3 hours - the standard is to register for 3 hours per DIS/Tutorial, but a student may need to register for 1 or 2 hours, to supplement a course with 4 or more hours).

The student may also take Supervised Research or Teaching hours. On the way to satisfying the 33 hour requirement, the student may count up to 3 hours each of Supervised Research or Teaching. The student may also take a seminar to satisfy the requirement.

<b>Language Requirement</b>		
<b>Course/Exemption</b>	<b>Semester Passed</b>	<b>Grade</b>
<input type="text"/>	<input type="text"/>	<input type="text"/>

Any student who receives their MA from FSU must satisfy a language proficiency requirement. A student is exempt from the language requirement in the following cases (some of which need verification from transcripts):

- \*The student already has a MA in philosophy
- \*The student is an international student and fluent in the language of her native country (when the native country's language is not English)
- \*The student has completed 12 semester hours in a foreign language with a B (3.0) average
- \*The student completed 4 years of a single language in high school

If the student is not exempt, she may take graduate reading knowledge courses from the Modern Languages Department, and she will receive certification of her proficiency by taking an exam. Some students are able to take the exam without sitting through the course, and once they have registered for and passed the exam, they will have satisfied the language requirement.

**PHASE II: Satisfaction of the 60 credit hour requirement** (30 of which must be seminar hours; previous seminar hours transfer)

Students must reach 60 credit hours before or within the same semester they take their Special Area exam. The Special Area exam must be passed before a student is admitted to doctoral candidacy (and is eligible to take Dissertation hours). Of these 60 credit hours, 30 must be letter-graded philosophy seminar hours. All students should be able to transfer at least 18 seminar hours from the coursework they completed in pursuit of the 33 hour requirement.

**TOTAL (previous subtotal + this table):**

Once a student has satisfied the letter-graded philosophy seminars requirement, she may make up the remainder of the 60 hours either by continuing to take letter-graded seminars, or by taking hours in other course types (DIS/Tutorial, Supervised Teaching/Research, graduate courses outside the department). The hours for other course types counted toward the 60 credit hours are restricted in the following ways:

- \*Only 6 hours can be DIS or tutorial hours
- \*Only 3 can be Supervised Research hours
- \*Only 3 can be Supervised Teaching hours
- \*Only 3 can be graduate language hours
- \*Only 12 can be graduate hours outside philosophy

**PHASE III: Satisfaction of 90 credit hour requirement** (at least 24 must be dissertation hours)

Once a student has passed her Special Area exam, she will be admitted to doctoral candidacy, and will be eligible to take dissertation hours. The dissertation prospectus must be defended within the first six weeks of the semester in which the student first begins taking dissertation hours. Thus, while a student may be eligible to take dissertation hours after passing the Special Area exam, it may be better to wait and take a semester to gather the committee and begin the initial work on the prospectus. Since 24 of the 90 credit hours must be dissertation hours, the student will have 66 hours left over to fill. The student may either take more dissertation hours, or may take hours in other course types. The hours for other course types counted toward the 90 credit hours are restricted in the following ways:

- \*Only 12 can be DIS/Tutorial hours
- \*Only 5 can be Supervised Research hours
- \*Only 5 can be Supervised Teaching hours
- \*Only 3 can be graduate language hours
- \*Only 12 can be graduate hours outside philosophy
